

→ Data warehouse Basics

- Database Concepts
- DW Definition
- Type of Tables
- Star Schema
- Snow Flake Schema

→ Microstrategy Product Overview

- Microstrategy Developer
- Microstrategy Architect
- Microstrategy report services
- Microstrategy Intelligence server
- Microstrategy Distribution Services
- Microstrategy Administration
- Microstrategy Object Manager
- Microstrategy Integrity Manager
- Microstrategy Command Manager
- Microstrategy Web
- Microstrategy Data Blending
- Microstrategy Visual Insights

Global Online IT Training

→ Microstrategy Developer:

→ Microstrategy Basics

- Introduction to Microstrategy Business Intelligence
- Introduction to Microstrategy Developer & Architecture
- Types of Microstrategy Objects
- Introduction to Public Objects
- Introduction to Schema Objects
- Introduction to Configuration Objects

→ Microstrategy Basic Reporting

- Introduction to Attributes and Metrics.
- Basic Report Creation
- Different types of Report Mode

- Pivoting
- Templates
- Sorting
- Auto Styles
- Outline Mode
- Formatting Changes
- Conditional Formatting(Templates)

→ Advanced Reporting and Data Manipulations

- Creating and saving Advanced report filters
- Creating and saving Advanced report Prompts
- Creating, formatting and saving metrics
- Microstrategy OLAP services in desktop
- Report Objects
- View filters
- Derived Metrics
- Smart Metrics
- Level Metric
- Transformation Metric
- Conditional metric
- Creating and saving prompts & searches
- Consolidations and Custom Group
- Exporting Report

→ OLAP Services

- Creating Intelligent Cube
- Publishing Intelligent Cube
- Creating Intelligent Cube Reports
- Derived Elements(List,Calculation,Filters)
- Dynamic Aggregation
- Dynamic Sourcing

→ Report Performance Tuning

- Report Data Options
- Aliasing
- Report Limit
- Attribute Join Type
- Metric Join Type
- VLDB Properties

→ Microstrategy Architect

- Introduction to Microstrategy Architect
- The logical data model
- The physical warehouse schema
- Advance Data modeling and schema design
- Many to many relationships
- Introduction to project creation in Microstrategy architect
- Creating Microstrategy facts
- Creating Microstrategy attributes
- Role attributes
- Automatic and Manual Mapping
- Creating Microstrategy hierarchies
- Project configuration workshop

→ Microstrategy report services

- Introduction to enterprise reporting
- Document basics
- Document design concepts
- Useful design techniques

→ Microstrategy Intelligence server

- Introduction to Microstrategy administration
- Administration and query flow
- Connectivity
- Startup and administration interface
- Security
- Microstrategy intelligence server administration
- Caching and scheduling
- Datamarts
- Clustering

→ Microstrategy Distribution Services

- Creating Subscription
- Scheduling Subscription
- Subscribing User and User Groups

→ Microstrategy Administration

- MSTR Installation
- Object manager
- Project duplication
- Groups and user creation
- Command manager

→ Microstrategy web Basics

- Exposure to mstr10
- New concepts included in mstr10
- Document Creation in Web
- Dashboard Creation in Web.
- Custom Groups in Web
- Metric Creation in Web
- Prompt Creation in Web.

→ Microstrategy Web Advanced

- Creating Documents and Dashboard.
- Different View and Execution Modes.
- Creating Documents and dashboard using slice n Dice Concepts.
- Inserting Panel Stacks ,Layouts ,Selectors and widget in Documents and Dashboard.

→ Microstrategy Web Visual Insights

- Adding External data from various sources to create dashboard.
- Importing Dashboards
- Exporting Dashboards.
- Data blending.
- Linking Different attributes.

→ Microstrategy Interview Questions and Queries.
